

Extra fields:

CustomerEmail – Stores the email address of the customer. This is essential for communication, sending booking confirmations, invoices, and promotional materials.

MembershipStatus – Indicates whether the customer has a membership and possibly the type of membership they hold. This can affect room rates, discounts, and other special privileges.

HouseKeepingNotes – Contains notes for housekeeping staff regarding specific requirements or conditions of the room. This can include cleaning instructions, special requests by guests, or maintenance issues.

SpecialRequests – Captures any special requests made by the guest during their stay. This can include requests for extra pillows, dietary needs, or other services.

Discounts – Records any discounts applied to the invoice. This is important for calculating the final amount due and for financial reporting. (Related to MembershipStatus)
